

Romain Lesobre

PSAM12 Speaker Bio

PhD Student (Volvo Group Trucks Technology / Gipsa-Lab)

Short Statement: First author

BIOGRAPHY

Romain Lesobre (26 y/o) received his engineering degree in operational safety, risks and environment and his MSc in system's optimization and security in 2011 from Troyes University of Technology, France.

He is now a PhD student at GIPSA-lab (Grenoble Institute of Technology & CNRS, France) and a research engineer at Volvo Group Trucks Technology. His research work is currently focused on maintenance policies optimization based on a system perspective, on system monitoring and system design for maintenance.
