

## Sylwia Werbińska-Wojciechowska

### PSAM12 Speaker Bio

#### **Expected maintenance costs model for time-delayed technical systems in various reliability structures**

---

**Short Statement:** speaker for the authors

---

#### **BIOGRAPHY**

PhD. **Sylwia Werbińska-Wojciechowska**, Wrocław University of Technology, Department of Logistics and Transportation Systems; PhD. work concerns the problems of logistic support systems for technical objects exploitation process performance modelling; now she is interested in delay-time modelling, especially concerned with application issues for transportation systems maintenance performance.

## **Anna Jodejko-Pietruczuk**

PSAM12 Speaker Bio

### **Expected maintenance costs model for time-delayed technical systems in various reliability structures**

---

**Short Statement:** co-author

---

#### **BIOGRAPHY**

PhD. **Anna Jodejko-Pietruczuk**, Wroclaw University of Technology, Division of Logistics and Transportation Systems; Ph.D. work concerns economic, reliability and safety consequences generated by spare parts provisioning policy of a technical system; now she works and publishes papers in the area of maintenance modelling and optimization, particularly applied in logistics and production systems.
